

Favour Evans

Frontend Developer

+234 903 010 0577 · foidedesigns23@gmail.com · github.com/foidevans · [LinkedIn](#) · Port Harcourt, Nigeria

Frontend developer with hands-on production experience building fintech platforms and on-demand service products. Currently developing core dashboard and marketplace features at Vulue using React 19, Next.js, TypeScript, and Tailwind CSS. Strong eye for design implementation, comfortable working across fast-moving startup environments.

EXPERIENCE

Vulue | *Frontend Developer* Dec 2025 – Present · Remote

Collaborative finance platform for sophisticated portfolio building and private market access.

- Implemented core dashboard features including a **Strategy Builder**, **LP Plans marketplace**, and **Sole Risk** section using React 19, Next.js, and TypeScript.
- Built **multi-step investment flows** and Chart.js data visualisations enabling users to track and manage portfolio performance in real time.
- Developed demo-ready interfaces for investor pitches and VC presentations, contributing to codebase architecture decisions and feature prioritisation.

Gigsta Technology Ltd | *Frontend Developer* Jan 2026 – Feb 2026 · Remote

Nigeria-based on-demand services platform connecting users with skilled service providers.

- Led frontend development for the **Concierge MVP** — architecting client booking flows, provider registration systems, and waitlist functionality using Next.js, TypeScript, and Tailwind CSS.
- Delivered a complex, multi-screen product from scratch within weeks, demonstrating strong execution speed in an early-stage startup environment.

Live: gigsta.vercel.app

She Code Africa – Mentorship Program | *Frontend Project* Oct – Dec 2025 · Remote

Competitive mentorship initiative supporting women building production-grade frontend projects.

- Selected for She Code Africa's competitive mentorship program out of a large applicant pool.
- Delivered **Serena & Co** — a fully responsive interior design portfolio — in under 2 weeks, translating a Dribbble image reference (no Figma file) into a live production site.
- Implemented Locomotive Scroll, Framer Motion animations, and Supabase for dynamic content management across 5 responsive sections.

Borderless Academy | *Web Development Trainee* 2024 – Sep 2025 · Nigeria

- Ranked **top 15%** in Borderless Academy's competitive selection process from 100+ applicants.
- Built 5+ fully responsive websites; completed 100% of foundational coursework 2 weeks ahead of schedule.
- Contributed to open-source and Web3/full-stack projects including a decentralised social platform on the Metis Blockchain.

PROJECTS

Vulue – Fintech Investment Dashboard · Dec 2025 – Present

- Full wallet module with plan detail pages, invest flow, transaction status screens, and data visualisations built from Figma designs.
- Stack: React 19, Next.js, TypeScript, Tailwind CSS v4, Recharts, Zustand, TanStack Query, Radix UI.

Serena & Co – Interior Design Portfolio — serena-co.vercel.app · Oct – Dec 2025

- Production-ready site built from a Dribbble image reference in under 2 weeks. Stack: Next.js, Framer Motion, Locomotive Scroll, Supabase.

Web3 Social Platform — soll-network.vercel.app · 2025

- Decentralised social platform exploring Web3 identity and on-chain interactions, built as part of Borderless Academy's Metis Blockchain Cipher.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Tailwind CSS, Framer Motion, Node.js

Tools & Platforms: Git/GitHub, Vercel, Supabase, Firebase, Figma-to-Code

Soft Skills: Attention to Detail, Cross-functional Collaboration, Fast Learning, Product Thinking

EDUCATION

University of Port Harcourt | *B.Sc Plant Science & Biotechnology* 2021 – 2025 · Port Harcourt

Relevant: Scientific Research Methods, Data Analysis, Systems Thinking

Borderless Academy | *Full-Stack Development Program* 2024 – Sep 2025 · Nigeria

Coursework: React, Next.js, TypeScript, Python/FastAPI, Blockchain Technologies, Open-Source Development
